

Quantum Fuschia Power Plus 10W-30

Description

A new generation of automotive oils based on revolutionary concepts meeting the performance level required by today's gasoline engines. Super Oil is blended with the most advanced additive package, which enables it to give exceptional performance under most severe operating conditions.

It provides effective protection against oxidation, wear and corrosion under high temperature operations and remains a stable multi grade Super Oil provides good cold starting and high resistance to sludge, low volatility characteristics, low oil consumption and is fully compatible with the catalytic converters and exhaust emission control equipment.

Benefits:

- Excellent engine protection.
- Eliminates seasonal oil changes.
- Maintains a high order of engine cleanliness.
- Better control of deposit formation.
- Better oxidation stability at high temperatures.
- Excellent shear stability, maintain viscosity grade.
- Protects against rust, wear and sludge formation.
- Compatible with catalytic converters.

- Suitable for mixed fleet operation.

Application

Quantum Fuschia Super Oil is recommended for gasoline and diesel engine passenger and commercial vehicles of every make and type, turbocharged or naturally aspirated, which require API SL/CF quality oil. It can also be used for engines where API Service Category SJ and earlier categories are recommended.

It exceeds the performance requirements of most European, Japanese and American car manufacturers.
